## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1-11 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 7/27/04, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 12-18 and 20-21, directed to a packet router are withdrawn from further consideration because they do not require all the limitations of an allowable generic linking claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim(s) presented in a continuation or divisional application include all the limitations of a claim that is allowable in the present application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 12-18 and 20-21 directed to an invention non-elected with traverse in the reply filed on 8/27/04.

### *Allowable Subject Matter*

3. Claims 1-11 are allowed.
